Many students who have attended ISO exams in past from Internet café are not able to do so in current situation and also some parents informed that they don't have option to repair their laptop or computer due to COVID-19, therefore Edu Mithra has made some changes in exam pattern.

1. From now on wards participant will not be given access to "Mouse Control" instead participant will read the question loudly and give the correct option to the examiner and the examiner will enter the given option by clicking on it.

2. Participant shall not call for attending the exam as the examiner will be occupied conducting exam. Participant will receive a call as soon as the examiner is free.

3. Time change for attending exam will NOT be allowed as there are some restrictions from government because of COVID-19, so every participant is supposed to be present for exam on given time.
